BUTT WELDING MACHINE 11000 Series

SPECIAL ADVANTAGES:

- The set is enclosed in a nicely painted totally enclosed sturdy ms cabinet provided with wheels, ensuring protection of the electrical and internal assembly.
- 2) As it is a portable set can be moved over easily to any welding point and place.
- 3) The self-centering clamp attachment makes the alignment of cross sections of welds sure, and adjustability of the clamps vertically and horizontally are also provided.
- 4) Operation: Cross section to be clamped and upsetting pressure is to be adjusted by a screw fitted with movable welding operation controlled by push switch allowing the hands to remain free.
- 5) For different wire or material cross section welding current adjusted by a built in precision step switch.
- 6) Special post-heating clamp facilitate.
- 7) Annealing of the weld adjacent areas. The set is trouble free and lasts long time.
- 8) We also undertake as per customer's requirement.
